TRAINING THAT DEVELOPS *REAL* CAPABILITY

ISO 50001 Internal Energy Management System Auditor

EE020

ISO 50001 Internal Energy Management System Auditor

This intensive two-day course equips learners with the knowledge and practical tools to carry out internal audits of Energy Management Systems (EnMS) in line with ISO 50001. It provides both foundational understanding and advanced audit techniques.

Designed for individuals managing or auditing energy systems, the course blends theory with hands-on practice to ensure learners return to the workplace ready to drive energy efficiency, identify non-conformances and support ongoing improvement initiatives.

Duration & Price

Duration: 2 days
Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.

In-Company Training

Please contact us for more information on our In-Company training options

What's covered?

This practical programme explores ISO 50001 and energy audit techniques through exercises, sample documents and real-world scenarios.

Key topics include:

Day 1:

- ISO 50001 vs ISO 14001 & ISO 9001
- In-depth review of ISO 50001 clauses
- Auditing principles and methods

Day 2:

- Building the audit team and toolkit
- Conducting audit interviews
- Gathering and evaluating audit evidence
- Writing audit reports
- Post-audit follow-up and improvements
- Use of ISO 50001 audit checklists
- Practical case study and simulated audit

The content is practical and adaptable for In-Company delivery to meet specific sector needs.

Who should participate?

This course is ideal for those involved in the implementation, maintenance, or auditing of an Energy Management System to ISO 50001

- Energy or Environmental Managers
- Internal auditors seeking to specialise in energy systems
- Compliance or sustainability professionals
- Personnel responsible for ISO 50001 implementation or review

English Language Competency

A good standard of written and spoken English is important to engage effectively with this programme.

What will I learn?

On successful completion of this course, learners will be able to:

- Interpret the requirements of ISO 50001
- Plan and prepare for an internal audit of an Energy Management System
- Conduct effective and structured internal audits
- Support continual improvement in energy performance

Learners will leave with practical audit skills and a clear understanding of how to add value through internal EnMS audits.

How do we train and support you?

Our training approach is practical, highly interactive and discussion-based, with flexibility to meet organisational needs:

- Emphasis on real-world application through practical exercises, case studies and group activities that reinforce key concepts and encourage active participation.
- Accredited training aligned to certification standards, with structured assessments and recognised best practices.
- Pre-training consultation for In-Company courses to tailor content to organisational needs
- Access to comprehensive course material that is regularly reviewed and updpublicated to reflect the latest industry standards and guidance.
- Flexible delivery options to suit different needs:
    - Onsite or live virtual sessions tailored for teams
    - Scheduled virtual Public courses for individual learners
- Support through SQT's online learning platform
- Real-time support from expert Tutors

Class sizes are generally limited to 12 participants to support personalized learning and individual support.

How can you progress?

Graduates of this course can build on their skills through:

- ISO 50001 Lead Auditor Training
- ISO 14001 Internal Auditor Training
- Environmental Sustainability Skills for Managers

These options support continued professional development in auditing, compliance and sustainability.
