Covid-19 Risk Assessment and Control for the Workplace

Covid-19 Risk Assessment and Control for the Workplace

As part of our response to the Covid-19 crisis, our expert Tutors in Health and Safety have developed a one-day training course to address Covid-19 Risk Assessment and Control for the Workplace.

Under the Health and Safety at Work Act 2005, organisations have a legal duty to ensure the health, safety and welfare of both employees and anybody visiting their premises, including customers and contractors. This includes identifying, risk assessing and controlling biological hazards, including Covid-19, which people may be exposed to at work.

This one-day programme will assist the company to identify the legal responsibilities of all relevant parties and explore the practical application of these responsibilities.

Duration & Price

Duration: TBC
Delivery mode: This programme is available In-Company
