

TRAINING THAT DEVELOPS
REAL CAPABILITY

Behavioural Based Safety

HS002

Behavioural Based Safety

Behavioural-based safety training is becoming increasingly important in the context of improving the health and safety performance of companies. Improvements in accident rate reduction have also been identified as a result of behavioural-based safety training.

This two day training programme will be of benefit to health and safety auditors who wish to learn how to conduct behavioural safety audits.

Duration & Price

Duration: 2 days

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.
